RESTful APIs

JSP and JEE

Spring Framework

Hibernate, Microservices

⊕ OBJECTIVE

I am a motivated and detail-oriented Java Developer looking to leverage a solid foundation in software development. I have knowledge in Java, React Js, Spring Framework, and SQL, and I am eager to contribute to innovative projects. I bring problem-solving skills and a passion for technology to a dynamic team where continuous learning and applying cutting-edge technologies to solve complex challenges is encouraged. I aim to utilize a diverse skill set in full-stack development to drive efficiency and quality in software solutions.
